

In 2008  
thecentre:mk  
recycled over  
**1000**  
tonnes  
of waste

## So why recycle?

Every year the average person uses  
290 carrier bags from supermarkets alone!

Recycling 1 drinks can saves enough  
electricity to power a TV for 3 hours!

By recycling 2 glass bottles you save enough  
electricity to boil the water for 5 cups of tea!

**And see if you can make some  
serious savings too!**
